

YOUR QUESTIONS ANSWERED

What is My School Book Club?

Like traditional school book clubs, we reward you every time you order. Unlike other book clubs, though, we don't ask you to distribute magazines, handle cash or administer the ordering process. It's new, it's simple – and costs nothing to set-up or run.

How does it work?

Simple. We have created a complete book club website – that we customise with your school's name. We then provide you with email and leaflet templates to tell parents all about it. Each time they order, 20% of the value will be returned to you in free books.

How do schools receive their free books?

Every time books are ordered from your school site, 20% of the value is credited to your school to buy books from the club for your school use. Parents and teachers can access your school's 'Book-o-meter' at any time. This shows the total raised by all parents. When you're ready to restock your school library, you simply log-in and redeem part or all of your credit.

Do schools handle any cash?

No. Parents login to your book club website and order direct via credit or debit card. The books are then sent straight to their homes – so we handle the money and distribution for you.

What sort of books does the club offer?

In short, nothing but the best. The books in every age group are chosen with great care, both for the quality of their writing and illustrations and because we believe they will encourage children to read. The famous authors behind the club insist that we only offer the finest books for children. The selection even includes the best in 'graphic novels', to inspire even reluctant readers.

What if you already have a school book club?

We believe our club is the best possible option – for schools, parents and children. There is no financial commitment on your part, so why not try it for yourself? We hope you will soon switch to us – and you're welcome to run My School Book Club alongside your current provider.

Are the books priced competitively?

Yes. We regularly check our prices against other booksellers on the High Street and online. You will find our books are the same price – or cheaper.
